

Friends of Harford, Inc. focuses on Harford's land use issues, working for a fair balance between the rights of those wanting to develop a property and the rights of neighbors who might be impacted by that development. Our website is www.friendsofharford.com.

Land use is controlled by the County Executive and County Council members. In anticipation of the upcoming election, **Friends of Harford** is asking you to please respond to the questions below, so we may understand your perspectives and reasoning on these issues. We will post your responses on our website and notify our members that they are available.

Responses from all County Council candidates are due back to us by April 15, 2018 (email@friendsofharford.com). Thank you for your cooperation and assistance in keeping Harford County citizens aware and informed of your goals and objectives.

County Council

1. What improvements are needed for your district?
2. What legislation do you plan to introduce for your district? For the County? If you are an incumbent, what legislation have you introduced?
3. How would you include or engage more people to provide input to the Council's decisions?
4. Would you be willing to explain your voting decisions on the dais for each bill you vote upon?
5. Would you support better ways to provide the public with user-friendly notification of decisions by DAC and the Zoning Board of Appeals? If so, how?
6. Would you vote in favor of term limits for County Council members? Explain.
7. How do you propose to solve the County's traffic problems in your district?
8. What parts of the zoning code do you feel need to be changed?
9. Do you feel it's time for noise and lighting legislation in Harford County?
10. Do you approve of General Industrial (GI) zoning adjacent to residential communities or within a Village District? If your answer is 'No', how do you reconcile your disapproval with HarfordNEXT and recent Comprehensive Zoning Review decisions?
11. Do you agree with the reduction in the number of County inspections on construction sites when only 34 percent of contractors are in compliance with the Erosion and Sedimentation Control Ordinance?
